EXPERIENCE

Freelance — IOS Developer & Graphics Designer

Nov 2020 - Jan 2021

- Worked as a freelance developer to build the Fast Food application (Jain Fast Food) and deployed it on [App Store](#).
- Heavily used **Firestore** (firestore & authentication).
- Used **Combine Framework** to ensure that the user authenticates perfectly.
- Store/Upload data in **JSON Format** and use the same firebase account for **Android & IOS** applications.
- Used **Core Location** to auto location user current location.
- Last but not least, used **cocoapods** to implement **Firestore & SwiftyJSON**.

Teach — Graphics Designing & Tools

May 2020 - Aug 2020

- Teach BCA students about graphics designing and some related tools.
- Mostly teach **Adobe** tools like **adobe xd & adobe illustrator**.

Password Saving IOS App Project

Jan 2020 - Feb 2020

- Build an app to store credential data (Like Password, Notes, etc).
- Used **Combine Framework** to ensure that the user authenticates perfectly.
- Used **CoreData** to store data in local storage.
- Used **Neomorphic Effect** to improve App UI

Agora Vote Proposal Project

Mar 2020

- Participated in Google Summer of Code (GSoC) and created a [Proposal](#) for Agora Vote IOS application.
