EXPERIENCE

Freelance — IOS Developer & Graphics Designer

📅 Nov 2020 - Jan 2021

- Worked as a freelance developer to build the Fast Food application ([Jain Fast Food](#)) and deployed it on [App Store](#).
- Heavily used Firebase (firestore & authentication).
- Used Combine Framework to ensure that the user authenticates perfectly.
- Store/Upload data in JSON Format and use the same firebase account for Android & IOS applications.
- Used Core Location to auto location user current location.
- Last but not least, used cocoapods to implement Firebase & SwiftyJSON.

Freelance — Wireframe & Logo Designing

📅 Dec 2020 - Mar 2021

- In this pandemic, I make some good clients and build some good designs for them.
- Teach BCA students about graphics designing and some related tools.

Password Saving IOS App Project

📅 Jan 2020 - Mar 2020

- Build an app to store credential data (Like Password, Notes, etc).
- Used Combine Framework to ensure that the user authenticates perfectly.
- Used CoreData to store data in local storage.
- Used Neomorphic Effect to improve App UI

EXPERIENCE

Agora Vote Proposal Project

📅 Mar 2020

- Participated in Google Summer of Code (GSoC) and created a Proposal for Agora Vote IOS application.
